Remington 870, Winchester 1200/1300 and Maverick 88

Thank you for purchasing one of Advanced Technology Inc.'s Shotforce Components!
Please fill out the enclosed Unconditional Lifetime Warranty card and mail it within 30 days of purchase.

SHOTSHELL HOLDER INSTALLATION INSTRUCTIONS

MAKE SURE YOUR FIREARM IS UNLOADED BEFORE STARTING!

- 1) Cut out mounting template. (Must print to ACTUAL SIZE: See printing instructions below)
- 2) Place five shotgun shells in holder and position on stock.
- 3) Locate proper position on stock so there is no interference with cheek, shoulder, etc.
Note: The Shotshell Holder may be mounted on either side of the stock for both left and right-handed shooters.
- 4) Place mounting template where you wish to mount the Holder and tape it down.
- 5) Mark ONLY the corner holes using template with a sharp object. ie., nail, awl, punch.
- 6) Remove the shells and drill the four holes using a 7/64 drill bit.
- 7) Mount Shell Holder using the four flathead screws supplied. Re-insert all five shotshells and check shells for "snug" fit.

NOTE: For tighter fit, install middle 2 screws.
